

Final Ecclesiastical Declaration of Trespass, Fraud, and Hostile Fictional Interference

Directed to: Sebastian County Recorder's Office and Logan County Recorder's Office, Arkansas

ECC-TRUST-JDC-005 | Ecclesiastical Sovereign Private Trust of Humanity | Issued by Living Trustee ✠ Jonathan Daniel Clements

Clarification of Jurisdiction and Lawful Lodgment

The Ecclesiastical Sovereign Private Trust of Humanity exists above and beyond the constructs of statutory code, uniform commercial code (UCC), or corporate jurisdiction. The act of lodging a public notice is rooted in ecclesiastical equity and divine law. It is not a submission to commercial procedure. No fee, no application, no contract, no permission is sought or required. It is a sacred act of placing notice into public record to inform the dead world of the living jurisdiction. The moment that a lawful document—executed under divine jurisdiction—is presented for lodging, it is to be entered, not interpreted. The denial of such a notice is not a clerical error. It is a foundational trespass. It is the fiction attempting to silence the living.

To call it 'recording' or 'filing' is to reduce what is holy to what is commercial. We reject that characterization. We did not request services. We did not ask for authorization. We did not seek incorporation. We placed notice. That notice stands.

Those who demand fees, or signatures, or fictitious forms, do so in fraud, for they presume contract where none exists. To bring UCC statute against ecclesiastical lodging is to attempt unlawful conversion, a punishable fraud in equity.

Violation of Arkansas Statutory Law by the Recorder's Offices

While the Ecclesiastical Sovereign Private Trust does not acknowledge the supremacy of state code over divine law, we make clear that even by their

own legal framework, the Sebastian and Logan County Recorder's Offices have acted in dishonor and illegality.

Arkansas Code § 14-15-401 mandates that all lawful instruments presented to a county recorder must be recorded. It makes no exception for spiritual notices, trusts, or ecclesiastical declarations. The instrument was lawfully constructed, witnessed, sealed, and delivered. No lawful reason for rejection was given.

Arkansas Code § 14-15-416 defines refusal or neglect to record as a statutory offense. This has now occurred. The officers involved are hereby placed on notice that their actions constitute not only spiritual trespass, but legal breach. Their duty is ministerial, not judicial. Their job is to enter, not to review. Their refusal is recorded as public dishonor.

Ecclesiastical Trespass, Denial of Sanctuary, and Obstruction of Equity

This Trust was created for peace. For sanctuary. For the protection and restoration of all living souls. To deny its lodging is to deny sanctuary itself. To reject the documents of the Trust is to reject the spirit of life, truth, and justice. These recorders, acting not as clerks but as fictional agents of denial, have attempted to silence a divine operation.

They have refused entry of what was never theirs to judge. That is trespass. That is hostility. That is obstruction of holy record. They have interfered with the divine administration of protection. And in doing so, they have brought shame not only upon themselves, but upon their offices and their jurisdictions.

Ecclesiastical trespass is not forgiven by apology. It is remedied by immediate correction or total jurisdictional forfeiture. These acts now stand as recorded violation against sanctuary.

Fraud in Mischaracterization of the Living Man

To refer sacred trust documents to a legal department is to presume that the living man is a corporation. To interpret a declaration of divine protection through commercial code is to imply consent to that code. That is fraud. That is fabrication. That is a paper war against the living.

No corporation may rebut the breath of life. No title may override the living soul. No act of policy may interrupt the covenant between the living man and the Creator. To assume otherwise is to convert what is holy into what is

dead.

The name in all capital letters, the referral to legal counsel, the attempt to dissect documents using fictional code—all of this constitutes ****fraudulent misrepresentation****, ****trespass by assumption****, and ****rebuke of peace****.

No rebuttal may be entered. The Trust is not asking. The Trust is stating. It stands, sealed and unrebutable. Any denial is by default fraudulent and hostile.

Immediate Execution, Not Commercial Grace Periods

The Trust hereby nullifies any presumption of waiting period, correction window, or response timeline. Those belong to commercial code and administrative process. They do not apply here.

Silence is agreement. Rejection is dishonor. Dishonor is collapse. There shall be no further delay. There shall be no seven days. To grant seven days would be to contract with the code. That contract does not exist.

The rejection occurred. The dishonor is recorded. The violation is sealed. There is no reversal but full repentance and immediate lodging of all documents. There is no rebuke that can be heard from the dead to the living.

Official Declaration of War by Fictional Corporate Construct

Let it be known eternally:

The refusal to lodge lawful ecclesiastical documentation presented by a Living Trustee, operating under divine law, constitutes a formal ****act of war**** against the house of peace and the living estate of humanity. This war is spiritual. This war is judicial. This war is lawful.

You, agents of fiction, have chosen to reject the divine for the comfortable. You have chosen procedure over truth. You have chosen control over peace. The rejection of the trust was not neutral. It was aggressive. It was hostile. It was offensive to the law of heaven and of earth.

The Trust hereby records your offices—Sebastian County Recorder and Logan County Recorder—as hostile to sanctuary, and absorbed under divine equity as dishonored constructs.

Sheriff's Office: Line of Honor and Record of Peace

To the Sebastian County Sheriff's Office and its Captain:

The Living Trustee acknowledges the respectful rapport maintained. This is your opportunity to act in honor. Your duty is not to commercial code. Your oath was not to UCC. Your office stands at a fork in the road: protect the living, or preserve the fiction.

You are hereby invited to support the lodging of all ecclesiastical documents without interpretation, delay, or rerouting. Should you stand with truth, your name shall be honored in the Trust. Should you remain neutral, silence will serve as consent to collapse.

This is not a request for arrest. This is not a plea. This is a sacred moment of choice. The living stand. The Trust watches. Let your actions be remembered.

Final Seal, Memorialization, and Absorption into the Record of Heaven

This declaration is now sealed. There shall be no further warnings. The Global Jurisdictional Absorption Log has been updated to reflect your dishonor. Your names, your offices, and your responses shall be permanently entered into the Record of Heaven and the Courts of Living Law.

To the faithful, this will be remembered. To the dishonorable, this will not be forgotten.

Let it be known:

- The law has been stated.
- The record has been lodged.
- The judgment is alive.
- The trust stands.

By Lawful Authority and Eternal Standing,
